Full sun/partial shade. Landscape use: specimen/shrub border/woods edge/aromatic flowers. Generally insect/disease free.	H:4'-7'
<i>Calycanthus x</i> 7 gal - \$20	"Venus" pp#15,925 Sweetshrub A cross with <i>Sinocalycantus</i> by Dr. Ranney of N.C. State with large, fragrant magnolia-like flowers. Zones 5-9.	H:5-6'
<i>Camellia sasanqua</i> 3 gal - \$8 5 gal - \$12.50	"Ed Dinnsen" Camellia White flower with pink margins, densely branching, oval shape.	H:6-10', W:30'
<i>Carpinus caroliniana</i> 7 gal - \$17 10 gal - \$30	"Ironwood" American Hornbeam Attractive native understory tree, commonly called muscle-wood.	H:30', W:30'
<i>Carya illinoensis</i> 3 gal - \$8	Hardy Pecan Great shade tree (seedling).	H:50-70', W:30-50'
<i>Cephalotaxis h. x</i> 3 gal - \$11	"Duke Gardens" Plum Yew Zones 5-9. Evergreen shrub with needle like foliage, nice for foundation plantings.	H:3'; W: 4'
<i>Cercis canadensis</i> 3 gal - \$8 5 gal - \$12.50 10 gal - \$25	Eastern Red Bud Native understory tree. Nice tree for mass planting or specimen.	H:25', W:25'
<i>Chamaecyparis pisifera</i> 3 gal - \$8 10 gal - \$25	"Gold Mop" / "Golden Filliment" Good for a mixed screen border or massed in a privacy hedge.	H:15'
<i>Chinoanthus virginicus</i> 7 gal - \$17 10 gal - \$30	White Fringe Tree Handsome native plant with white fringe-like flowers. Sun/shade.	H:12'-20'
<i>Cotinus coggygria x</i> 5 gal - \$12.50	"Young Lady" Smoke Bush Blooming crazy! Poodle in a pot. Excellent orange-red fall color. Sun. Zones 4-8.	H:7-9', W:6'
<i>Cryptomeria japonica</i> 10 gal - \$30	"Gyokruyo" Mounding form eventually forming a central leader.	H:8', W:6'

Scientific Name	Common Name	Average Mature Size
<i>Cupressus arizonica</i> Squat 5 gal. - \$15 10 gal - \$30	"Blue Ice" Arizona Cypress 2.5'-3'/yr. Blue green. A real eye catcher. Hot, dry, full sun.	H:30', W:8'
<i>Cupressus arizonica</i> 10 gal - \$30	"Carolina Sapphire" Arizona Cypress Full sun. Dought tolerant. Sea green. Broad pyramid.	H:40', W:25'
<i>Fagus grandifolia</i> 5 gal - \$12.50 7 gal - \$20 20 gal - \$90	American Beech Native. Good screening tree. Holds bronze-colored leaves all winter thus providing privacy most of year.	H:50-60', W:50-60'
<i>Ficus carica</i> 3 gal - \$10	Common Fig Large multi-stemmed shrub to small tree with reliable fruit. Tried and true varities for NC, 'Celeste' & 'Brown Turkey'	H:8-15', W:10-20'
<i>Gardenia jasminodies</i> 1 gal - \$4 3 gal - \$8	"Frostproof" Zone 7. Compact growth habit. Lance-shaped foliage. Double fragrant white flower. Cold Hardy.	H:4', W:4'
<i>Ginkgo Biloba</i> 5 gal - \$12.50 10 gal - \$25	Ginko Pyramidal picturesque tree. Emerald green fan-shaped leaves. Drought, heat, air pollution and salt tolerant. Oldest known living tree species. Medicinal.	H:50', W:30'
<i>Gleditsia triacanthos f. inermis</i> 10 gal - \$30	"Thornless Honey Locust" Native fast grower. Interesting legume-like leaves. Pulp inside pods is edible and sweet, although thornless varieties produce fewer pods. Tolerant of wind, heat, drought and salt. Great in tough city conditions.	H:40'+, W:30'+
<i>Hydrangea</i> 3 gal - \$8 Squat 5 gal - \$15	"Nikko blue" Popular deciduous shrub with large rounded blue flowers. Acid soil = blue.	H:5', W:5'
<i>Hydrangea mac.</i> 3 gal - \$10 Squat 5 gal - \$15	"Masja" Superb semi-dwarf with big red flowers. Zones 6-8.	H:3'-5'
<i>Hydrangea mac.</i> 3 gal - \$10 Squat 5 gal - \$15	"Pink Shira" ppaf Hardy. Compact growth. Long-lasting blooms.	H:4'-5'
<i>Hydrangea paniculata</i> 5 gal - \$12	"Tardiva" Upright, rapidly growing deciduous shrub with showy white pyramidal flowers. Provides late summer bloom. Great as specimen or massed. Medium grower.	H:4-6', W:4-6'
<i>Hydrangea paniculata x</i> 3 gal - \$11 7 gal - \$20	"Limelight" pp#12874 Combination of green, pink and burgundy blooms in autumn. Larger grower.	H:12', W:10'
<i>Ilex cornuta</i> 10 gal - \$25	"Burfordi nana" Dwarf Burford Holly Lustrous, dark evergreen foliage provides a good contrast for the abundance of red berries that it produces.	H:5-6', W:4-5'

Scientific Name	Common Name	Average Mature Size
<i>Ilex cornuta</i> 3 gal - \$8 5 gal - \$12.50	"Carissa" Zones 7-9. Dense growth and superior foliage. An ideal hedge or foundation plant. Drought and heat tolerant.	H:3-4', W:4-6'
<i>Ilex cornuta</i> 10 gal - \$25	"Fine Line" Dense upright selection. Plentiful berries.	H:8', W:4'
<i>Ilex crenata</i> 3 gal - \$8 5 gal - \$12.50	"Soft Touch" Soft to the touch and eyes. Dense compact low growing lustrous dark green leaves.	H:2', W:3'
<i>Ilex crenata</i> 7 gal - \$17	"Sky Pencil" Compact width makes good entranceway accent or tall skinny hedge.	H:8', W:2'
<i>Ilex glabra</i> 3 gal - \$9	"Shamrock" Inkberry Holly Native. Slow growth rate. Full sun to full shade. Deer proof. Wet site tolerant.	H:6-8', W:4-6'
<i>Ilex x attenuata</i> 10 gal - \$25	"Fosteri" Foster Holly Pyramidal. Red berries.	H:10', W:6'
<i>Ilex x</i> 5 gal - \$15 10 gal - \$30	"Carolina Sentinel" Holly Pyramidal shape with less pruning than the foster hollies.	H:20', W:4-5'
<i>Illicium floridanum</i> Squat 5 gal - \$15 10 gal - \$30	Florida Anise Tree Wet/dry, part sun/shade. Zones 6-9.	H:8', W:5'
<i>Itea virginica</i> 3 gal - \$8 5 gal - \$12	"Henry's Garnet" Virginia Sweetspire 6" clusters of fragrant white flowers in May-June. Native. Sun/shade, dry/wet. Maroon fall color.	H:5'
<i>Itea virginica</i> 3 gal - \$8 5 gal - \$12	"Saturnalia" Virginia Sweetspire More upright than "Henry's Garnet". Yellow/orange/red fall color. Displays best in large masses.	H:6'
<i>Juniperus davurica</i> 3 gal - \$8 5 gal - \$12	"Parsonii" Parson's Juniper Heat tolerant.	H:2-3', W:6-9'
<i>Juniperus virginiana</i> 10 gal - \$25	Eastern Red Cedar Native. Good for screening. Tough. Heat and drought tolerant.	H:50', W:20'
<i>Lagerstroemia indica</i> 10 gal - \$25	"Muskogee" Crepe Myrtle Light lavender flowers. Fall color – red.	H:24'
<i>Lagerstroemia indica</i> 10 gal - \$25	"Natchez" Crepe Myrtle Pure white flowers from late June to September. Fall color – orange.	H:24'
<i>Lagerstroemia indica</i> 10 gal - \$25	"Tonto" Crepe Myrtle Fushia flowers. Semi-dwarf. Fall color – maroon.	H:10'

Scientific Name	Common Name	Average Mature Size
<i>Leucothoe populifolia</i> 3 gal - \$8 5 gal - \$12.50	Florida Leucothoe A very versatile native evergreen shrub for shade to full sun. Nice texture. Zone 6.	H:10'
<i>Loropetalum</i> 3 gal - \$10 Squat 5 gal - \$15	"Daruma" Chinese Fringe Flower Compact with burgundy foliage. Smallest loropetalum.	H:2'-3'
<i>Loropetalum</i> 3 gal - \$8 Squat 5 gal - \$15	"Ruby" Chinese Fringe Flower A compact form. Once the smallest loropetalum.	H:4', W:4'
<i>Myrica cerifera</i> 5 gal - \$12.50 7 gal - \$17 10 gal - \$25	Wax Myrtle Native. Tough and durable evergreen shrub, can handle salt and exhaust. Great wildlife plant and nitrogen fixer. Good for borders and screening No serious disease or pests.	H:10-15', W:10-15'
<i>Nyssa sylvatica</i> 5 gal - \$12.50 10 gal - \$25	Black Gum Excellent specimen tree, early fall color.	H:30-50', W:20-30'
<i>Osmanthus fragrans</i> 10 gal - \$30	Fragrant Tea Olive Small very fragrant white flowers cover this shrub in fall, winter and early spring.	H:18', W:8'
<i>Pinus densiflora</i> 7 gal - \$18 10 gal - \$30	Japanese Red Pine Irregular, open floppy grower. One of the handsomest pines.	H:40-50', W:40-50'
<i>Quercus alba</i> 7 gal - \$17 10 gal - \$30 15 gal - \$45	White Oak Native. Long-lived and durable shade tree. Rot resistant wood. Great for carbon sequestration.	H:50-80', W:50-60'
<i>Quercus falcata</i> 5 gal - \$15 10 gal - \$30	Southern Red Oak Brilliant red fall color. Great for carbon sequestration.	H:80', W:70'
<i>Quercus phellos</i> 15 gal - \$45	Willow Oak Great shade trees. If you only have room for one this is a great choice.	H:40-60', W:30-40'
<i>Sambucus canadensis</i> 3 gal - \$9 7 gal - \$17	"American" Elderberry Native with large white umbel flowers and small dark edible fruits to follow in summer, good for syrups, wines, pies and jellies. Naturalize in ditches and wetter soils, good for rain gardens	H:25', W:25'
